

Governor Cooper - you must take a stand now to defend some of North Carolina's most vulnerable citizens - our Latino students and their families.

We know the life-altering impact that any ICE activity can have on the Latino community, who constitute 9.5% of North Carolinians. Latino North Carolinians are involved in their student's education, run businesses, own homes and shop for goods and services - just like the rest of us. Not only is ICE activity emotionally traumatizing for our Latino neighbors, it has a ripple effect across all of our state. It has been especially felt in schools through lower attendance, cancelled parent teacher conferences and an increased fear in attending or participating in school events. The unnecessarily punitive and targeted ICE activity leads to greater psychological and emotional distress in the Latino community regardless of immigration status. When ICE threatens our North Carolina community with raids, arrest, and deportation, it affects all of us.

Governor Cooper - action from you can support all North Carolinians.

Please join us in standing up to the inhumanity of these ICE raids in our communities. Sue the Trump administration.

Respectfully,
